PRICING GUIDE / MY APPROACH

# I AM THE STYLIST FOR YOU IF YOU'RE *looking for* :

- **A Personalized Approach :**

I only book one wedding a day so that I can give my all to you and create a luxury experience that you'll look back on fondly. We'll even dig deep before the big day to work out your wedding vision and strategize how to apply your dream look to perfectly fit your unique features and help you shine!

- **Peace of Mind :**

I want you to feel taken care of from the moment you inquire, to the end of your special day. I become someone you can trust by offering open communication with me leading up to your service and create a stress-free environment for you on the big day, by meeting you where you're emotionally and *providing support as well as styling.*

- **Attention to Detail :**

I'm what you would call an "easy-going Type-A" personality. I enjoy spending time planning out the little things that make a big difference. Like prepping you for your first look, styling and securing your veil, offering clip-in extension application, providing my assistance in finding the best accessories for your wedding vision and more.
